

PRODUCTION PHOTOGRAPHY
CURTIS BROWN

A PRODUCTION PHOTO IS MORE THAN A STILL IMAGE. IT IS A STORY.

My mission for every production is to photograph the life on stage and translate key moments into a story through the shots. Working quickly on my feet to move with the show allows me to capture the emotion, depth, story, and action as it is unfolding.

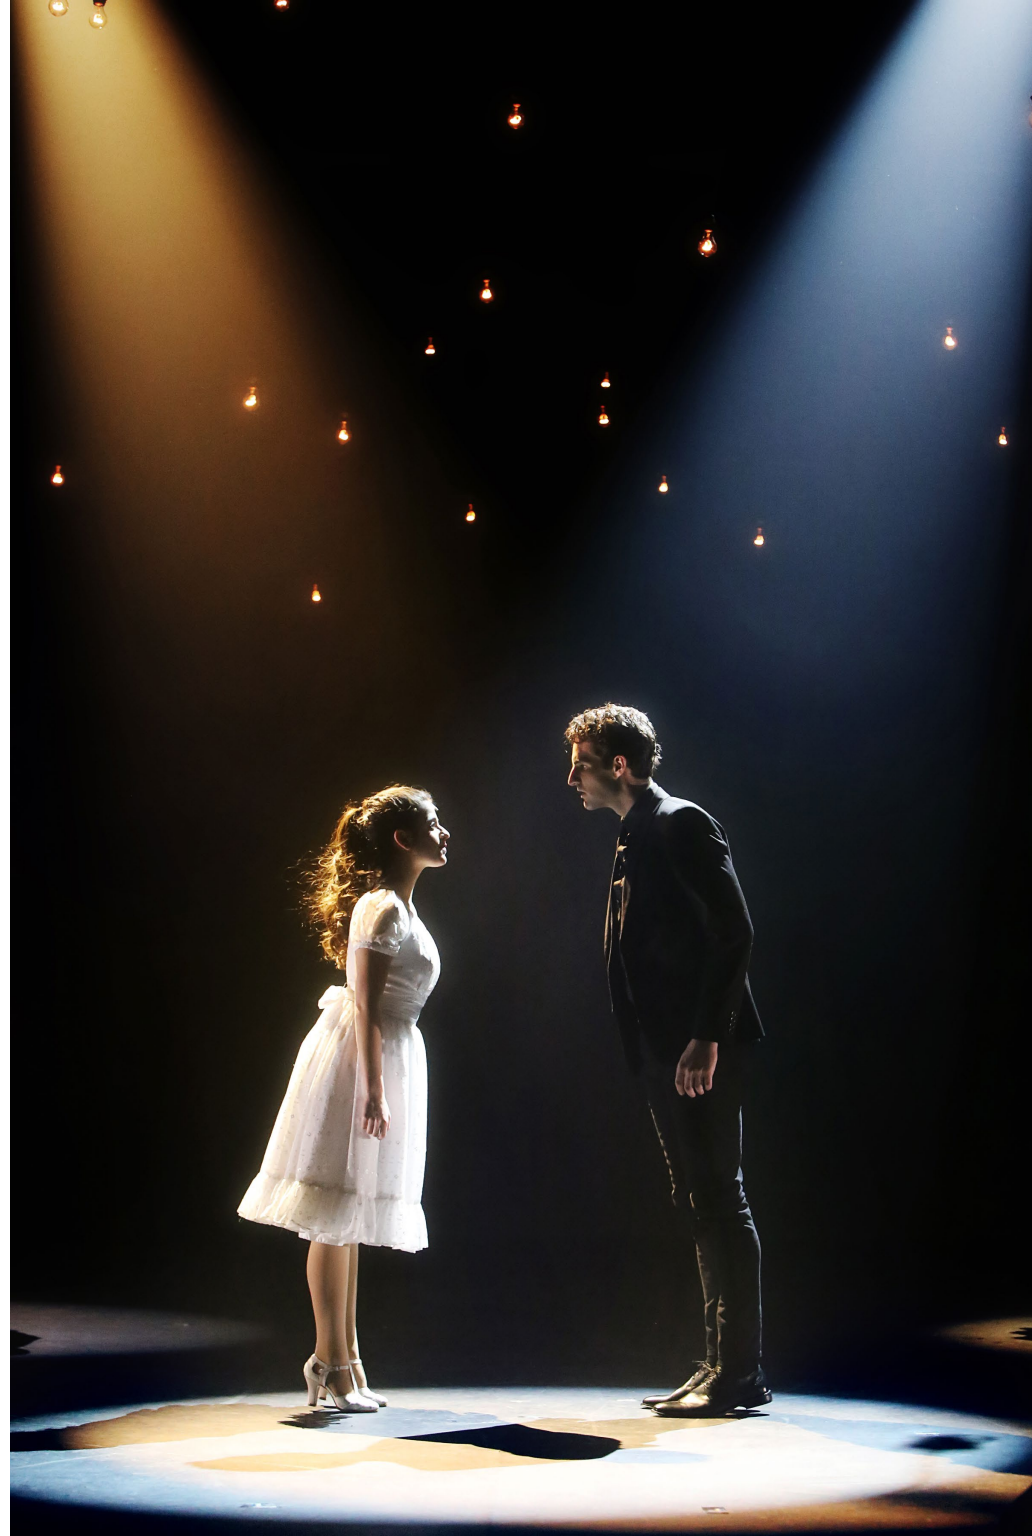

My objective is to use my photography to compliment and elevate the endless amount of work that goes into each performance and create marketing opportunities to promote the company, the production, and sell tickets.
